Have we lost the spirit of Labor Day?

Today Labor Day is no longer about trade
unionists marching down the street with
banners and their tools of trade.

*Instead, it is a confused holiday with no
associated rituals.*

The original holiday was meant to handle a
problem of long working hours and no time
off. Although the battle over these issues
would seem to have been won long ago, this
issue is starting to come back with a
vengeance, not for manufacturing workers
but for highly skilled white-collar workers,
many of whom are constantly connected
to work.

If you work all the time and never really take
a vacation, **start a new ritual** that honors the
original spirit of Labor Day.

- Give yourself the day off.
- Don't go in to work.
- Shut off your phone, computer and other
electronic devices connecting you to
your daily grind.

Then go to a barbecue,
like the original participants did
over a century ago, and celebrate having at
least one day off from work during the year!
